

JEB BUSH
GOVERNOR

MEMORANDUM

TO: AAA Executive Directors **NOTICE:** 121302-1-T-OVCS

FROM: Terry White
Secretary

DATE: December 13, 2002

SUBJECT: Notice of Transmittal – Special Request for Information on Alzheimer’s Resources

TERRY F. WHITE
SECRETARY

House Speaker Johnnie Byrd has asked legislative staff to compile a comprehensive inventory of resources that are available throughout Florida to support people with Alzheimer’s disease and their families and caregivers. As you know, Speaker Byrd has indicated that issues involving Alzheimer’s disease will be a top priority during his term as Speaker.

During the recent meeting of the Department’s Alzheimer’s Disease Advisory Council, the attendees compiled an informal list of resources that was submitted to legislative staff. The purpose of this memorandum is to request your assistance in identifying all resources that are available within your Planning and Service Area. **Please complete the attached EXCEL spreadsheet and submit this information to Tom Reimers by Monday, January 6, 2003.**

I appreciate your support in responding to this request. This is a wonderful opportunity to showcase existing programs in your communities, while helping to identify service gaps that may be able to be addressed through the upcoming Legislative session.

Thank you very much for your assistance. If you have questions, please contact Tom Reimers at 850-414-2150 (SC 994-2150).
